

Humza Butt

Software Engineer, Full Stack & Platform Configuration

Sutton, London | 07450 251281 | humzabutt1711@hotmail.com | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full stack software engineer with experience building scalable SaaS platforms, APIs, cloud-hosted systems and real-time applications across startup and enterprise environments. Strong in TypeScript, Node.js, React and cloud-native development, with enterprise platform configuration experience for Tier 1 clients including Shell, the BBC, the NHS and the Home Office. Comfortable owning projects end to end, from architecture through deployment, and collaborating cross-functionally in Agile environments.

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript, React, React Native, Vue.js, Vite, Tailwind

Backend: Node.js, Express, Python, Flask, REST APIs, C#

Data: PostgreSQL, SQL, SQLite, Firebase/Firestore, ETL pipelines

Cloud & Infra: AWS, Azure, Cloudflare Workers, Docker, CI/CD, GitHub Actions

Practices: Agile/Scrum, unit and integration testing, code review, technical documentation

PROFESSIONAL EXPERIENCE

Lead Full Stack Software Engineer & Tech Founder, BGr8

Feb 2025 - Present

- Founding engineer: built a weighted matching algorithm and backend services from the ground up, achieving 95% match accuracy in production.
- Own every technical decision solo, shipping production features end to end across the full stack.

Tech: Node.js, TypeScript, React, Firebase

Full Stack Software Engineer, LifeSmart Financial Literacy

Mar 2024 - Present

- Build and ship 7 production SaaS-style tools (analytics, financial simulation, reporting) across React, TypeScript and Cloudflare Workers, achieving sub-second global load times.

Tech: TypeScript, React, Vite, Cloudflare Workers

Configuration Analyst & Web Developer, CoreStream GRC

Jul 2025 - Dec 2025

- Configured enterprise GRC and reporting platforms for Tier 1 clients including Shell, the BBC, the NHS and the Home Office, working to tight delivery timelines.
- Modernised legacy configuration and data models, establishing better delivery practices as the team scaled.

Tech: SQL, Azure, JSON, Vue.js, C#

Founder, Mobile & Full Stack Engineer, Breathapplyser

Jun 2023 - Present

- Founded the product and rebuilt it from scratch, owning the backend end to end: Node.js services, PostgreSQL, Docker and CI/CD.

Tech: Node.js, PostgreSQL, Docker, CI/CD

Full Stack Software Engineer & Chatbot Developer, Mentage

Nov 2024 - Feb 2025

- Built an AI-driven conversational application end to end, including scalable REST APIs, authentication and real-time messaging integrations.

Tech: Python, Flask, REST APIs, Firebase

SELECTED PROJECTS

- imposter-game: real-time multiplayer Discord Activity game with server-authoritative state. React, Vite, Cloudflare Workers, PartyKit.
- BiasLens: cross-outlet news bias and sentiment analyzer, data collection and analysis pipeline. Python.

EDUCATION

University of Portsmouth MEng Computer Science, Merit; BSc Computer Science, 1st Class Honours
